The General Theory of Crime explains, like other control theories, the absence and not the emergence of crime. This leads them back to self-control. If an individual has little self-control, and has the opportunity to commit crime, criminal behavior becomes more likely. Since the opportunities for crime are widespread, lack of self-control is to be seen as the main cause of crime.

By articulating a general theory of crime and related behavior, the authors present a new and comprehensive statement of what the criminological enterprise should be about. They argue that prevalent academic criminology—whether sociological, psychological, biological, or economic—has been unable to provide believable explanations of criminal behavior.

...A General Theory of Crime (Michael R. Gottfredson and Travis Hirschi) Term Paper Soc 203 Prof. Ortiz 12th December 2002 Crime is a serious issue in the United States and research shows that it is running rampant, and its effects are felt in all socioeconomic levels. Each economic class has its own crime rates and types of crime. It is a mistake to think of crime as a lower class problem.

In their important work, A General Theory of Crime, Gottfredson and Hirschi assert that the propensity to commit crime is tied directly to a person's level of self-control. According to Gottfredson and Hirschi, individuals with low self-control are unable to restrain themselves from the temptations of immediate satisfaction (Cullen & Agnew, 2006). Giving notice to classical rational theories ...

This paper presents a general strain theory of crime and delinquency that is capable of overcoming the criticisms of previous strain theories. In the first section, strain theory is distinguished from social control and differential association/social learning theory. In the second section, the three major types of strain are described: (1) strain as the actual or anticipated failure to ...

In criminology, examining why people commit crime is very important in the ongoing debate of how crime should be handled and prevented. Many theories have emerged over the years, and they continue to be explored, individually and in combination, as criminologists seek the best solutions in ultimately reducing types and levels of crime. Here is [...]
